FEMALE ANNOUNCER:

Did you know that the air inside your home can be up to 100 times more polluted than the air outside. No matter how clean you keep your home, it's littered with harmful contaminants like viruses, bacteria and mold. Pet dander, dust and pollen. Contaminants that cause illness and make allergies and asthma much more severe. Thankfully, there's a way to make your home healthy—the Aprilaire Electronic Air Cleaner. Using the best air cleaning technology available, Aprilaire is the only whole-home air cleaner that effectively removes harmful contaminants—even viruses from the air your family breathes. And that makes your whole home a comfortable, healthy place to be. Your family deserves the best, so why not give them the best? Make your whole home healthier with the Aprilaire Electronic Air Cleaner. Aprilaire. Fresh Ideas for Indoor Air.
